

Cranwich Road saves hours and gains peace of mind thanks to Network Locum's Clinical Governance Checks

"I love being able to download all the GP's relevant documents in one click and like the added reassurance that they've already been checked by a GP."

-Paula, Cranwich Road

Challenge

Paula used to spend hours every week chasing, checking and filing GP locum documents. She also spent an hour at the beginning of every locum session inducting new GPs and wanted something to eliminate all of this hassle.

Solution

They switched to Network Locum and reviewed the successful applicant's documents in just a few clicks. They didn't need to print documents off because the GP documents are stored online for future reference.

Results

Time saved

24hrs/month

Documents reviewed

260

GPs checked

34

If Paula had found GPs herself she said this would have taken at least 32 hours/month

"Network Locum has proven to be very reliable for us. Patients like the GPs they provide and it made our CQC inspection much easier than in the past. I'll never use an agency again."
