

# Dr Tully gets paid within 48 hours through Network Locum

"The fast payment feature is great to cover day to day expenses whilst awaiting other payments. It removes all the hassle of creating and chasing invoices"

- Dr Tully, Portfolio GP

## Challenge

Dr Tully wanted the flexibility that locum work provided but found irregular cash flow difficult to deal with. She wanted to find a way of getting paid quickly so she wouldn't need bank loans or overdrafts.

## Solution

Dr Tully used the "Fast Payment" feature when she worked with SELDOC (Out of Hours Provider). She confirmed the hours she worked on her way home from work and received payment into her account within 48hrs.

## Results

Time taken to confirm hours

3 minutes

Payment received

Within 48hrs

Time saved per invoice

2 hours

If Dr Tully had created and chased invoices herself, she estimated that it would have taken at last 2 weeks to get paid and several strongly worded emails.

"I wasn't expecting to be paid as fast as I was and I don't know of many professions where you get paid so quickly."
