

Dr Gondhia sets minimum rate on Network Locum and increases earnings by £10/hr

“With Network Locum I like being able to set my availability and how far I’m willing to travel as it means I get targeted notifications about jobs I’m interested in...I’ve wanted to start something like this for years.”

- Dr Gondhia, GP Partner

Challenge

Dr Gondhia has a young family and a very busy life. He didn’t like agencies because they badgered him with phone calls. He was looking for a way to keep his earnings high whilst gaining a bit of flexibility around when he worked.

Solution

Dr Gondhia used the “Minimum Rate” feature and set it to £80/hr. He was accepted for a job on the first day he signed up.

By setting how far he was willing to travel he was able to stay close to home.

Results

Average Hourly rate

£82/hr

Maximum distance travelled

5 miles

Availability

4 sessions/week

If Dr Gondhia had found work through agencies he estimated that he would receive at least 20 phone calls a week.

“I love how simple it is to find a job that suits me. It means that I can increase my earning capacity and spend more time with my family.”
